

Jailbreak 2019 Social Media Policy

Social media has become an important component of our lives and those of our young people. Following a number of incidents in previous years, mainly to do with misunderstanding and misinterpretation, we are implementing a Social Media Policy for our Jailbreak Event.

During the Event (i.e. between Midday on Saturday and Midday on Sunday), members taking part in the Event:

- **Must not post any messages, photos or any other information on any social media platform (including Facebook, Twitter, Instagram, Snapchat etc.)**
- **Must not send any direct messages via e-mail. Whatsapp (with exception of the Support Team), or other methods (such as DMs on Twitter, Instagram or Facebook)**
- **Must not communicate electronically with anyone outside of the Event except via the Support Team.**

We also ask that all tracking software installed on the phones of team members (young people and leaders) is turned off for the duration of the event. Phones are an important part of the support system of the event and preserving the capacity of the batteries is very important

Thank-you in advance for your co-operation regarding this and feel free to post as much as you wish after the event has finished on Sunday!
